BY THE CITY COUNCIL APRIL 9, 1889,
AND FEBRUARY 13, 1894

CONCORD, N. H.

PREFACE.

In March, 1889, the city council appropriated $500 to publish the Old Town Records of Concord, and in March, 1891, appropriated an additional $250 for the same object. A joint resolution was passed April 9, 1889, "providing for a committee to supervise the publication of the Old Town Records," which committee was appointed July 9, following. More than a year later the records of the legal meetings contained in the first volume of the Town Records were copied by John C. Ordway, Esq., and made the first 104 pages of this printed volume. Nothing more was accomplished until 1893, when a joint committee was appointed to consider the subject of publishing the Town Records. After considering it fully the committee unanimously reported to the city council, February 13, 1894, in favor of continuing the copying of the records down to and including the year 1800, and of printing the records the present year, which report was adopted unanimously. At the same meeting Alderman Henry W. Stevens and Councilman John A. Blackwood were appointed to act with Mayor Cogswell as a committee to supervise the publication of the old Town Records. The committee employed Miss Isabel S. Dana to copy the records in the second volume down to and including the year 1800, and by a subsequent vote, down to and including the year 1820, which completed the second volume.

The records of the first volume are not in chronological order, but the committee did not think it best to change them in any respect, and they are printed in the order in which they were recorded. The abbreviations, orthography, and punctuation are accurately copied, except that periods are substituted for pen flourishes at the end of paragraphs in some of the earlier records. The long s is used wherever it occurs in all the records. The first volume closes abruptly, giving only part of the proceedings of the annual meeting held March 29, 1749. This was in consequence of the "Bow controversy," during which there are no records of any town meetings, Rumford being deprived of its town privileges. The remaining pages of the first volume contain miscella-

neous records by several town clerks from 1748 to 1831. The proceedings of a meeting of freeholders and inhabitants, held after the transaction of the business of the annual meeting, March 4, 1777; of a meeting held March 4, 1783; and also of a meeting held May 22, 1777, to carry into execution an act regulating the prices of sundry articles, passed in the state April 10, 1777, and the report of the committee then appointed, are printed in chronological order with the proceedings of legal meetings. The other records consisting of sheep marks entered from 1770 to 1831; of licensed innkeepers and taverners; of licensed retailers of wines and spiritous liquors; of marriages by Rev. Timothy Walker, and of intentions of marriage posted on the meeting-house door; of animals impounded and of money found; and the first perambulation of the lines of the township of Rumford, are given, partly condensed, in an appendix.

The second volume of records begins with the act of incorporation of Concord in 1765, and continues the town meetings uninterruptedly from January, 1766. The proceedings of the annual meetings are given fully, accompanied by returns of the roads laid out by the selectmen, and altered or exchanged by vote of the town. Interesting and valuable letters and reports, incorporated in the records, are printed in the same relation in which they appear in the written records. The records of the early settlers of Concord are submitted to their descendants in the hope that they will carefully peruse and profit by them.

Att. Caleb Chase Town Clerk

Concord March 17th 1789.

Lt John Chandler & Mr Robert Ambose } Enter'd their difsent to Mr Evans' Salery March 17th AD 1789.

M. B. The time is now fully come in which your Invitation of me to the Work of the ministry is intitled to an answer. It must I apprehend be evident to all of you that neither your invitation nor my answer has been attended with any degree of precipitation and altho' it may be said that more time has elapsed since I have had your

call under consideration than the Congregation took in their determination to give me a call; yet I cannot help thinking that you will charge this delay not so much to my account as to other Causes. Were I now, after what you have heard me so publicly declare to say that I fully approve of everything in your Call I should discover such an inconsistency of Character as would make me very unworthy of that trust & confidence which you ought to place in the man who is called to be your pastor. This however is not the time nor does it come within my inclination to make any animadvertions which may either be painful to this Congregation or inconsistent with the true spirit of the Gospel of Christ. Unleſs I have been misinformed you have approved of me as univerſally as in the present State of human Nature can possibly be Expected. On my part I declare my approbation of you as a people, tho' your written proceedings are not to my mind.

Here I beg leave to observe that altho' I do not intend to embarras my answer with any conditions different from those contained in the Call, yet I cannot soon forget the many declarations which were made by a very considerable number of valuable members of this society that they were fully of opinion every alteration I desired would be obtained either before or at the next March meeting.

Let me therefore hope that you will not continue to deviate from the honourable & generous Customs & manners of our pious & worthy forefathers.

I hope you will think it of infinitely more importance to encourage the ministers of the Gospel in their arduous work than to give your Sanction to a method of settling Ministers which in the very entrance of their labours does in a manner tell them that after 20, 30, 40, or even 50 Years of the most faithful service they may be the most miserable Beggars. But I forbear to follow the subject where it may naturally lead. I cannot say that I Personally fear the bad consequencies of this System: neither do I remember that I ever said that I would desert the work of the Gospel ministry because the best measures are not always adapted for the comfortable support of the teachers of religion. I hope when my labours cease that if it be the will of God my life may not last long.

Much rather than be a uselefs burden to any people much rather would I die in a Pulpit & finish my ministry where my first ministerial labours began. Like a good Soldier it would be much better to die on my post than be carried or detained from it to linger out a uselefs & a painful existence in this world. Having premised these few things I now proceed to inform you that I do fully & explicitly accept your call to the work of the ministry in this Town: & I agree to be your Pastor. And as I do sincerely think the pastoral charge of a Congregation one of the most Solemn & important charges on Earth I feel a diffidence in my-self which I have not often experienced: but I cannot think that you will blame me for this diffidence when you recollect that the great Apostle Paul has said who is sufficient for these things. How to keep the mind from being weakened & too much softened by kindnefs, or from being scared by those oppositions which do sometimes in some places appear; so as neither on the one hand to be afraid, or to neglect to declare the plainest & the most awful truths of the Gospel to the best friends: nor on the other hand to shew temper & resentment in the declaration of the same truths to those who are not so friendly to the Gospel, In those things there is a difficulty: It must therefore be very manifest that great firmnefs & much meeknefs are necefsary that so the Pastor may neither be drawn aside from the line of his duty by the smiles of friends, or carried into unholy & excefsive severities by the frowns & reproaches of his Enemies. After this view of things I am persuaded it will not appear an unnecefsary formality for me to ask your prayers. I have often heard that a praying people will make a praying a preaching & a succefsful Minister, I sincerely ask your prayers, I hope you will not deny them, pray that I may not shun to declare the whole counsel of God to you.

Pray that I may be a blessing, & that by preaching & living Jesus Christ, I may both save myself & you.

As I have Received your Invitation to settle among you as your minister, it is Expedient that I should make known to you the Result of my Deliberations on that important subject—

You are sensible that this is a subject of magnitude both as it Respects you and as it Respects myself—It is a subject which involves the interest of Religion so far as the influence of this transaction shall extend. It is then a subject which Requiers sober and prayerfull deliberation

It would be unneceſsary for me to relate to you the anxiety with which my mind has Labored in view of my own inability & the weight of that Object which your invitation involves—And it has been my Prayer to God that he would Direct me to those things which will be for the interest of Religion

After Deliberation Respecting the importance of the Object and my own duty I have thought fit to Comply with your invitation and do therefore Comply with it—Praying that God would Crown these our Determinations with his bleſsing—that He would make me an instrument to promote your spiritual happiness—that He would build us up in faith and love and finally present us faultleſs before his throne with Exceeding Joy to whom be glory forever—Amen—

22 That six hundred Dollars be raised for the neceſsary Charges of the Town the Ensuing year

23. That one Dollar be raised on a Poll and other Estate in Proportion to repair the highways the Current year in labour at ten Cents pr hour—

24 That the conduct of one McCoy a volunteer in the service of the United States and not belonging to this Town in attempting yesterday in defiance of the Moderator of the meeting to vote for State & County officers deserves sever Censure but his Act of Collaring the Moderator while in the exercise of his official duty we Consider an outrage of the moſt dstructive Character——

25 That the Thanks of this meeting of this meeting be given to *William A. Kent Esq*r the Moderator for his temperate reſolute & Judicious Conduct upon that occasion——

To which vote the Moderator made the following Reply *Fellow Citizen*—This expreſsion of your approbation of my conduct as Preſiding officer at the Election of your State officers yesterday demands my greatfull acknowledgment—

Awear of the reſponsibility attached to the office of moderator, and haveing intimation of the claiming that were intended by the Soldiers stationed in this town Calling themselves *united States Volunteers* to interfere in our Election I endeavoured ſo to decide reſpecting their voteing as would I hoped satisfy every man who regarded the rights of the *Citizen* with this view I was led to extend the right of ſuffrage to what was in my opinion, and that of many others a doubtful case, I mean that of admitting the votes of those in the service of the united States—who were inhabitants of this Town at the time of their enlistment and not yet departed from it The aragments in feavour of their admiſsion were that in consequence of the Rendervous being in Concord they had not yet left their *habitations* that some of them had families here– and that they had paid taxes to the Town for the year which had not yet expired

Haveing no disposition to abridge the right of suffrage I was willing to give all poſsibel weight to there considerations and if I erred that it ſhould be in *feavour* of that previledge I therefor received their votes. Here I thought it my duty to stop—The soldiers from the Barracks who never were recognized as *Inhabitants* could not in my view of the subject be so considered for the purpose of Electing or being Elected into office—I was yesterday proceeding to State the grounds of my opinion on this subject but meeting with interruptions evedently intended to protract the meeting to a late hour I determined to proceed no farther in that attempt; but to come at once to that ground which I determined to maintain at the hazard of my life———

I Considered *faithfulness* no leſs a duty in a modera-

tor than *impartiallity* I viewed it as an important Crifis as it respected this Town and prehaps the State——

This may be the place in which a *standing army* Shall first attempt to lay Prostrate the rights and liberties of the *Citizen* I decided that there ballots should not be received in any way or manner—The insults offered to the Town by the afsault made on its Representative I doubt not is Duly felt by my fellow *Citizens*: and I rejoice that notwithstanding the difference of opinions respecting our national politicks, so many of those who differ from me on that part united in reprobating & resenting that indignity—

26 That the Bell be rung as usal at the expence of the Town——

27. That the Selectmen pay twenty Cents for each Crows head brought to the Selectmen and Killed within the Town between the first day of may & the first day of July next——

28 That a Pall be bought for each burring plaice in the Town—

29. That the 13th articel be defmised—

30 That the Selectmen be authorised to make such a contract with the proprietors of the New Hampshire turnpike for repairing the bridge as they shall think proper
